

Serial No. 10/810,747

PATENT
Docket No. 93690-010100/03-0598

AMENDMENTS TO THE SPECIFICATION

Please amend paragraph [0011] of the specification as follows:

[0011] Each of the sealant layers can be extruded with the remaining portions of the first and second profile members. The sealant layers are preferably formed from a second material while the remaining portions of the first and second profile members are formed from a first material. Preferably, the first material is a low density polyethylene, while the second material that forms the sealant layer is an ethyl vinyl acetate (EVA) ~~EVA~~ sealant layer that melts at a lower temperature than the low density polyethylene.
